## PENGUINS OF THE NORTH

Talking about all living creatures on our beloved Serpent Isle, we cannot forget to mention the family of the penguins. Those clumsy-looking beings are called birds even though they cannot fly. They live in the northern part of this island. Penguins are very good divers. The short wings of their strong bodies are used as a rudder. Out of the water they walk upright just as Men and the tail is an important tool to keep balance. Depending on the species, they can grow taller than 3 feet. No
